

Pittsville School District's Vision and Mission:

Vision:

Expecting Excellence and Innovation, Honoring Legacy, and Embracing Partnerships

Mission:

Expecting Excellence and Integrity from all, developing Innovative students, strengthened through Partnerships with parents and the community

1. Student and Staff Learning:

- a. Mrs. Anderson's Local Foods class is accepting local produce donations. They have been busy canning tomatoes and learning how to preserve the food that is being donated.
- b. Ms. Meissner's Cranberry Science class will look a little different without the Splash of Red Cran Tours this year, but she has done a nice job of adjusting the curriculum. Students will be giving virtual tours and working on their public speaking skills through the use of technology.
- c. Faculty continues to find new educational technology resources to use to support the curriculum. Their growing knowledge and comfort with educational technology is ensuring all students have access to the curriculum and high quality instruction in and out of the classroom.

2. Innovation and Recognition:

- a. Ms. Meissner was interviewed by Channel 7 for a segment on the economic impact of COVID 19 on cranberries and the onset of harvest.
- b. Our own Abbi Knutson (Junior) participated in the Scholastic (S3DA) National Archery tournament virtually in August 2020. This tournament was originally scheduled for March 20 in Louisville, Kentucky but was postponed due to

COVID-19. Abbi participated in the High School Female Bowhunter Compound Class and placed first out of 53 competitors from around the nation.

3. Looking Ahead:

- a. We are beginning to look at options for events such as Veterans' Day and Homecoming to acknowledge these important events in our community. We welcome suggestions and support from the community.
